

## Radiant Delivers from the Network to the Cloud

Radiant Communications is a leading provider of cloud hosting, managed network and voice solutions for medium-size enterprises. Leveraging the largest Internet footprint across Canada, Radiant offers a comprehensive portfolio of reliable, secure and scalable IT infrastructure services, simplified under a single point of contact.

For over 17 years, many of Canada's most recognized brand names have been relying on Radiant to support their mission-critical business operations.

### Broadest Reach

With network coverage across Canada and the United States, Radiant is uniquely positioned to deliver best in class voice and data communications services to any location.

### Single Point of Contact

With one service level agreement, one support number and one bill, Radiant allows you to focus on what you do best—running your business.

### Reliable, Secure, Scalable

Radiant partners with world-class technology leaders like Juniper®, Cisco®, BroadSoft®, NetApp® and VMware® to create a superior solutions platform. Our services are certified to meet the most demanding security requirements in the industry.
